CERTIFIED,  
RETURN RECEIPT REQUESTED

Dear Bill,

Your proposed Plan of Operation (POO) for Lynn Springs is approved with the following modifications and/or clarifications:

1. Operations will be limited to presently open or disturbed areas (roads, process areas and quarries). New areas may be approved in the future as proposals for new operations are submitted.
2. The attached provisions for road construction and maintenance are to be made a part of the approved POO.
3. This approval of the Lynn Springs POO will apply only to portions of the mining claim that is within National Forest System lands. For those portions of the mining claim that is within lands administered by the BLM, Approval for proposed work will have to be obtained from that agency.
4. Reclamation of disturbed areas on National Forest System Lands within the Lynn Springs mineral claim may be done and is encouraged.
5. Continued approval of the Lynn Springs POO is contingent on the maintenance of the Reclamation Bond at a level to totally reclaim the Lynn Springs operations area. Costs are computed at the amount that it will take the Government to do the required reclamation.

6. Any other permits or licences required by State, County or other local government must be obtained and maintained by you to retain this approval of the Lynn Springs POO.

If you have any questions or comments, please contact Gordon Struthers at this office.

Sincerely,

A handwritten signature in black ink, appearing to read "Pete Peterson". The signature is fluid and cursive, with the first name "Pete" and last name "Peterson" clearly distinguishable.
